Noida, U.P., India | +91 98103 91414 | pranjals1193@gmail.com | [LinkedIn](#) | [Portfolio](#)

Professional Summary

Software Engineer with 5 years of experience building backend systems, data pipelines, and analytics platforms. Specialized in Django, NetworkX, and Pandas for organizational data analysis, with hands-on experience in ETL pipelines, PDF reporting, and workflow automation. Currently expanding into ML/AI applications including RAG systems and graph databases. Seeking roles in Backend Engineer / Data Engineer / AI Engineer

Technical Skills

Frameworks	Django, FastAPI, Streamlit, Celery
Data & ML	Pandas, NumPy, NetworkX, scikit-learn, LangChain, OpenAI, RAG, Ollama
Databases	PostgreSQL, Neo4j, GraphDB, Qdrant, Memgraph
Languages	Python, SQL, Cypher, JavaScript, jQuery, HTML,
Reporting	ReportLab, Matplotlib
DevOps & Cloud	AWS (EC2, ECS, S3, IAM, SSM/KMS), Docker, Docker Compose
Other Libraries	SqlAlchemy, Alembic, HTMX,
Other Tools	Git

Professional Experience

Software Engineer | Orglens Consulting Pvt. Ltd.

April 2023 - Present

- Developed and maintained analytics modules for an Organizational Network Analysis (ONA) platform, including ETL pipelines and customizable insights using Django, NetworkX, and Pandas - serving 20+ clients / 1000+ users.
- Designed and delivered the Social Capital Report and Survey360 reporting solutions, generating personalized PDF reports with 20+ customization options using ReportLab, Matplotlib, and Django - reducing report generation time by 20%.
- Automated internal dashboard workflows, reducing study management time for project teams by approximately 30%.
- Refactored and optimized legacy codebases, improving query performance by 50% and reducing technical debt across 5 modules.
- Built scalable, data-driven solutions leveraging Celery, FastAPI, Qdrant, Memgraph, SQL, and Cypher for graph-based analytics.

Data Analyst Intern | Careers360

March 2022 - September 2022

- Developed and delivered recurring (daily, weekly, monthly) and ad-hoc reports, enabling data-driven decisions for upper management across 2 business units.
- Extracted, cleaned, and analyzed datasets from company's database, ensuring high-quality data delivery to marketing and sales teams.

- Identified trends and anomalies around product launches, providing actionable insights that contributed to better quality leads.

Note: 2020 – 2022 - Full-time study (MS & Diploma in ML/AI)

Game Developer | Prayog Interactive

January 2019 - February 2020

- Designed and developed multiple casual games with 1000+ monthly users.

Full Stack Engineer | Posist Technologies Pvt. Ltd. (now Restroworks)

January 2017 -

September 2018

- Developed and maintained an internal grievance management system handling approx. 1000 tickets/month, streamlining customer issue resolution for support and product teams.
- Integrated ticket ingestion from multiple sources — email, cloud telephony, manual inputs, and web widgets — consolidating grievance capture into a single platform.
- Implemented SLA-driven workflows, escalation rules, history tracking, and automated email triggers, improving ticket resolution speed by 40%.
- Enhanced analytics dashboards providing visibility into turnaround times, request volumes, and agent performance.

Projects

Knowledge Graph QA - a system which converts documents into knowledge graph and lets user asks explainable question over the extracted graph

Tech: *Django, Celery, Memgraph, Tailwind, HTMX, Sqlite, Postgres* [View project →](#)

Document Search Engine - A semantic search engine on documents with explainability

Tech: *Django, Qdrant, HTMX, Bootstrap, Sqlite* [View project →](#)

TV Show Dashboard - Analysis dashboard with analyses trends in tv shows aired over the past 3 decades

Tech: *streamlit, plotly, pandas* [View project →](#)

Education

MS in Machine Learning & Artificial Intelligence | Liverpool John Moores University

2022

Diploma in ML & AI | IIIT Bangalore

2021

MCA (Master of Computer Applications) | BVICAM, Delhi

2017

Languages

Hindi (Native), **English** (Professional Proficiency), **Japanese** (basic)
